What is the fee for an oversized bag? Student Expense

These charges are in addition to any charge assessed for additional or overweight baggage. Baggage measuring more than 115 in (292 cm) (total outside dimensions; length + width + height) will not be accepted as checked baggage.

Carry - On Luggage

When you bring your bag onboard, you save time - avoid lines at the check-in counter and waiting at baggage claim - so you can ease in and out of the airport.

Liquids and Gels

If you are traveling with any liquid, gel or aerosol items, here's a few things you should remember:

* Travelers departing the U.S. may bring carry-on bags through security and aboard the aircraft with trial-size toiletries (3.4 ounces or less) which can be purchased at any drug store.

* Toiletries must fit comfortably in one, quart-size (7.5" x 8"), clear plastic zip-top bag. Zip-top bags will be provided if needed.

* The zip-top bag may need to be presented separately at airport security so make sure it is easily accessible when you approach the screening area.

Additionally, beverages or toiletries purchased inside the airport beyond the security checkpoints will be allowed onboard the aircraft.

Items greater than 3.4 ounces and/or not contained in a zip-top bag may be allowed on board but must be declared to the TSA at the security checkpoint for screening. These items include baby formula, milk (to include breast milk), baby food, juice, medications and liquids/gels that are needed for diabetic or other medical conditions.

Restrictions vary for flights departing from non - U.S. locations. Travelers should check with the departure airport for specific security restrictions.

It's always a good idea to check the airport processing times before departing for the airport to ensure that you allow enough time for additional processing when required.

Due to higher security levels at airports worldwide, gifts and packages are subject to the same inspection as your carry-on baggage. To reduce delays at the airport security checkpoint Continental recommends that you travel with your packages unwrapped. This will allow for easy inspection, if necessary.
